- camera (e.g. for cosmetic or dermatology procedures)
- disposable needles and syringes
- dressings/dressing trolley
- locked and secure drug cupboard
- ear syringe
- ECG machine
- examination light
- emergency bag
- equipment for maintaining an airway (e.g. Guedel airway)
- equipment to assist ventilation (e.g. Ambu bag or similar)
- eye charts
- eye examination equipment (e.g. fluorescein staining)
- gloves, sterile and non-sterile
- gowns, sterile and non-sterile
- guedel airways (various sizes)
- height-adjustable examination bed
- height measuring device
- IV access
- magnifying loupe
- measuring tape
- monofilament for sensation testing
- nebulisers
- ophthalmoscope
- otoscope
- oxygen supply
- pap smear equipment/speculums
- patella hammer
- peak flow meter
- plaster saw
- positive pressure oxygen/bag and mask
- pregnancy testing equipment
- proctoscope
- pulse oximeter
- purpose-built vaccine fridge is strongly recommended for safe storage of vaccines
- scales (adult and paediatric)
- Sharps containers
- Spacer for inhaler
- Specimen collection equipment
- Spirometer (or timely access to)
- Sphygmomanometer
- Small, medium and large cuffs
- Sterilisation equipment/autoclave (or off-site system)
- Stethoscope
- Suction
- Surgical masks
- Suture equipment
- Thermometer
- Torch
- Tourniquet
- Tuning fork
- Ultrasound Doppler device
- Urine jars
- Urine testing strips
- Vaginal speculums
- Visual acuity charts
- X-ray viewing box
